

Community Engagement · NorthWest Washington

Compassionate Community Engagement

Across The Pacific Northwest

Person-centered support helping individuals build confidence,
independence, and meaningful community connections.

Built by Support Professionals. Powered by community.

Personal, patient Community Engagement services for individuals with developmental disabilities across Snohomish, King, Skagit & Whatcom counties.

> Our Story

A different pace. *A different approach.*

Our founders spent years inside larger agencies – watching caseloads grow, paperwork multiply, and time with clients shrink. We knew there was a better way. So we built it.

> Our Mission

Our goal is to help individuals build confidence, independence, friendships, and meaningful participation in their communities.

Who We Serve

- Providing Community Engagement services for individuals receiving DDA waiver services.
- Individuals with developmental disabilities
- Young adults building independence skills
- Adults seeking meaningful community inclusion
- Families looking for person-centered support
- Individuals working on transportation, social, and life skills

Community Engagement, woven into everyday life.

Each service is built the same way listen first, support at the right pace, fade as independence grows.

- 01 **Community Engagement**
We partner one-on-one with each person to explore interests, identify community settings that fit their goals, and build the routines that make participation last. This is the foundation of every plan.
- 02 **1:1 Community Support**
We match each individual with a Support Professional based on personality, interests, and pace. Continuity matters most clients keep the same primary staff throughout their plan.
- 03 **Transportation Training**
We teach transportation skills that unlock independence. Start where the person is, ride alongside as long as needed, and fade support gradually.
- 04 **Social & Recreational Support**
Recreation is central to community life. We help individuals find activities they genuinely enjoy and the social rhythms that come with them.

- 05 **Life Skills Development**
Skills stick when they're learned in real settings. We teach in grocery stores, kitchens, and transit stations wherever the skill will actually be used.
- 06 **Community Inclusion Activities**
Inclusion is the long game. We work patiently to embed each person in roles and relationships their community recognizes and values.

SERVICE AREAS

Serving four counties across Northwest Washington.

> Local Support Professionals in every county we serve – closer to home, faster to respond.

Northwest Washington, *end to end.*

Every county we serve is staffed by locally- based Support Professionals – no long- distance scheduling, no rotating faces. Inside one of these counties? We can almost certainly help. Nearby? Ask anyway.
